

# Exeter Homestay UK Ltd

## About Us

### *What we do...*

At EHUK we pride ourselves on home stay accommodations. We offer a quality service for home stays in Exeter and surrounding areas, for children and groups traveling to the UK. Welcoming students yearly, we are working towards the highest quality mark to become an English language school along with British Council standards.

We have an experienced team consisting of enthusiastic admin staff, teachers, activity leaders and host families. But most of all importantly we recognise the quality of our host families and the high standard that they offer to their students.

All of our students will stay with our professionally selected host families during their stay, who are all committed to the highest level of student care and support.

Our aim is to improve our students English by increasing their confidence and communication skills, through fun and innovative learning, which is further enforced outside the classrooms during activities, cultural visits, training and specialist sports programmes. Students come away with not only the skills and experience above but a lasting memory, and exciting cultural escape and newly made friendships.

**“In 15 years of travelling to the UK, we have experienced the best service and excellent standards of host families with EHUK.”**

- Mrs Florin
